Perfect 👍 since you want the **exact layout structure** like a **formal official interface** for your *Pet Rescue & Rehome Management System*, I'll structure it role-wise (Admin, Staff, Client, Volunteer). This will be **professional, organized, and ready to use for UI design / documentation**.

🐾 Pet Rescue & Rehome Management System – Interface Layout Structure

---

👤💼 1. Admin Interface Layout

Header (Top Navigation Bar):

- System Logo + Title
- Notifications (🔔)
- Profile Menu (Admin Name, Logout)

Sidebar (Main Menu):

1. **Dashboard** – Quick stats (Pets in Shelter, Pending Adoptions, Volunteers, Donations)
2. **Manage Pets**
    - Add New Pet
    - View/Edit Pet Profiles
    - Medical Records
    - Foster Records
3. **Manage Users**
    - Staff Management
    - Volunteer Management
    - Adopter/Client Management
4. **Adoption Management**
    - Applications
    - Screening & Approvals
    - Adoption Finalization
5. **Rescue Management**
    - Rescue Requests
    - Transport & Assignment
6. **Reports & Analytics**
    - Adoption Statistics
    - Rescue Trends
    - Foster Reports
7. **System Settings**

Main Content Area:

- Displays tables, charts, forms depending on menu selection.

Footer:

- © 2025 Pet Rescue & Rehome System | Version 1.0

□$ 2. Staff Interface Layout

Header:

- Logo + “Staff Dashboard”
- Notifications
- Profile Menu

Sidebar Menu:

1. **Dashboard** – Assigned pets, daily tasks
2. **Rescue Intake** – Log rescued animals
3. **Medical Records** – Enter health check & vaccination updates
4. **Foster Care** – Assign pets to fosters
5. **Adoption Screening** – Review applications, schedule visits
6. **Messages/Communication** – With admin/volunteers

Main Content:

- Task list, forms for pet updates, rescue reports

Footer:

- Contact info | Logout

👤👥👪 3. Client (Adopter) Interface Layout

Header (Top Nav):

- Logo + Navigation Menu: `Home | Adopt | Rescue | Contact | My Account`

Homepage Sections:

1. **Hero Banner** – Image + “Find Your Forever Friend” + Buttons (Adopt / Rescue)
2. **Available Pets Grid** – Pet Cards (Photo, Name, Age, Breed, “Adopt Me” button)
3. **How Adoption Works** – Steps explained
4. **Testimonials / Success Stories**
5. **Footer** – Contact, Social Links, Copyright

Adopter Account Dashboard:

- My Applications (status tracking)
- My Adopted Pets
- Feedback / Share Updates
- Profile Settings

👩‍🏫 4. Volunteer Interface Layout

Header:

- Logo + Navigation: `Dashboard | Events | Rescue Reports | Profile | Logout`

Dashboard Sections:

1. **Upcoming Rescue Events** – Date & Time
2. **Assigned Rescue Tasks** – Pet transport, care duties
3. **Foster Opportunities** – Available foster cases
4. **Community & Messaging** – Internal chat / notices

Footer:

- Volunteer Guidelines | Contact Support

📐 Overall Layout Consistency

- **Admin & Staff** → Sidebar + Dashboard (data-heavy, task-driven).
- **Client & Volunteer** → Clean Top Navigation + Grid Layout (user-friendly, emotional).
- **Theme**: Warm colors (teal, orange, soft gray), rounded buttons, pet-friendly icons.
- **Responsive**: Works on desktop, tablet, and mobile.

✅ This gives you a **formal, official, structured layout** ready for documentation and UI design.

☞ Do you want me to now **convert this layout into a visual mockup (wireframe UI sketch)** so you can *see* how these interfaces look on screen?
